

What went well?

What should we keep doing?
What should we celebrate?
Where did we make progress?

What went poorly?

Where did we have problems?
What was frustrating to us or others?
What held us back?

India's agricultural crop
production analysis
(1997-2001)

Analysis
agriculture crop
production in
India from 1997-
2001

Land preparation is
the first operation
in ensuring that
crops can achieve
the best yields

we
celebrate
farmers

Adequate seedings
rates ,spacing and
placement are
crucial for the
development of the
planet

There are
seeders and
planters that can
be used under
reduced tillage
conditions .

Small scale
farmers that have
to prepare seed
beds manually
with basic tools

Supporting
livelihood
through food
,habitat, and
jobs .

Providing raw
materials for
food and
other
products .

Building
strong
economies
through
trade.

The agriculture
industry has
always been a pillar
of economic
growth for societies
world wide .

Explore
agriculture
business
ideas .

Organic livestock
farming ,including
poultry and dairy
,presents
lucrative
opportunities.

What ideas do you have?

What ideas do you have for future work together?
Where do you see opportunities to improve?
What has untapped potential?

How should we take action?

What do you believe we should do next?
What specific things should we change?
What should extend beyond this meeting?
